Editorial

Dear Wilson residents,

Nowadays, we are exhorted from all quarters to take more exercise for the good of our health, not to overspend to prevent the effects of inflation on our economy, not to waste energy to mitigate the effect of climate change and generally make the best use of our resources.

Perhaps I can suggest a simple way of complying with all these requests at one stroke, that of using public transport. Now the Southern Train Line is operational this is easier than ever. Our Wilson bus services now access railway stations at both Bullcreek and Cannington as well as the Carousel Shopping Centre, Curtin University and the City.

Thanks to the efforts of your **WRRRA** committee and local community leaders, in consultation

with the various public transport authorities, we in Wilson are now better served with efficient public transport than ever. In fact, arguably, twice as well as previously.

Of course, public transport will not suit the needs of everyone, for many reasons but if convenient why not leave the car at home on occasion.

You may find (as I do) that buses and trains are clean, comfortable, run on time, and are cheap. Also they offer a stress free journey with no traffic hassles or parking costs.

We are fortunate indeed in Wilson to have the upgraded services, so go on give it a try. You may find that not only are you healthier but your travel costs are reduced and feel that in the current climate —pardon the pun— you are doing your bit.
